

Ustroń is the only tourist town and health resort in the Silesian Beskid Mountains. It is located in the valley of the Vistula river surrounded by the mountains: Lipowski Groń, Równica, Great and Small Czantoria.

Ustron az egyedüli

Ustroń is called health resort because of the iron water springs as well as the mudbath deposits discovered there in the nineteenth century. Therefore, Rheumatology Hospital and Sanatorium was founded here. The musculoskeletal system, the cardiovascular system, the respiratory tract are treated there currently.

Ustroń is more and more charming thanks to the investments. The financial resources are raised, among others, from the European funds. So far, with the support of the EU we managed to accomplish the following tasks:

The projects which aim at ensuring social integration and equal opportunities include among others:

The market square as a lounge of the town - Revitalization of the Market square in Ustroń"

Total project value: 6,155,224.52 zł

EU funds: 3,462,925.23 zł

State budget funds: 430921.00 zł

Town budget funds: 2,261,378.29 zł

The grant rate of eligible costs: 56.26%

The project consisted of the comprehensive revitalization of the Market Square in Ustroń. The result is the creation of a modern and aesthetic public space in the town centre. The market square is a traditional centre of the town and functions as a meeting place for its inhabitants. It is also essential in the field of information, entertainment, culture, tourism and services.

The new tourist product in Ustron - sport and recreation area in Kosciuszko Park in the region of the Vistula boulevards

Total project value: 2 167 831.22 zł.

including: 1 837 556.53 zł – EU funds and the state budget.

Funds from the European Union amounted to 85% of the total project value.

The project consisted of the modernisation of the sport and play area. Currently, it acts as entertainment and fun for children, youth and adults as well as disabled people. This new area of sport and recreation along the Vistula river is a competitive tourist offer.

The run for dogs and the special devices for them were also created there.

Modernization of the amphitheater and complex development of the Kuracyjny Park

The total investment amounted to 6,322,737.40 zł.

The grant rate of eligible costs is 85%.

The project consisted of the modernisation of the amphitheater and development of the Kuracyjny Park. The project was a continuation of the investments of the 2003 year- the creation of a roofing. The audience was rebuilt and a new roof, stage and backstage were created. The Kuracyjny Park was renovated and new alleys, parking lots and lighting were made.

Complex modernization of the health centre at Mickiewicz Street in Ustroń

Total project value: 2,922,025.88 zł

The grant rate of eligible costs: 74,99%

The project aimed at reconstruction, extension and renovation of the buildings and premises of the health centre. It was also equipped with the appropriate devices in order to improve the quality and availability of health services for residents and visitors and to adapt the building for the disabled.

Your E-chance

The total value of the project: 1 738 236.55 zł

The amount of EU funds and the state budget, constituting 100% of eligible expenditure: 1 639 836.55 zł

The project was addressed to all the inhabitants of the town. The main objective of the project is to prevent digital exclusion of people facing a difficult financial and/or social situation, including school children and youth, as well as people with disabilities. The participants of the project were provided free internet access and free computers with the software.
